- **fixed remuneration** - comprising base salary, superannuation contributions and other benefits;

Further information about the Company's remuneration framework is included in the Remuneration Report in the 2020 Financial Report.

2.6 Remuneration of senior executives

2.7 Minimum shareholding policy

The Group maintains a Minimum Shareholding Policy which is designed to align the interests of non-executive directors, executive directors and senior management with the interests of the Company's shareholders. During the financial year the Board conducted an evaluation of board performance in accordance with the process.

2.9 Senior executive performance evaluation process

The CEO's key performance indicators (**KPIs**) are reviewed and set annually by the Board at the commencement of the financial year. The Board then carefully evaluates the CEO's performance against those KPIs.

The performance of the senior executive team is done in a similar manner with a combination of financial and non-financial KPIs recommended by the CEO and endorsed by the Board. At the end of each financial year, the CEO conducts performance reviews with each senior executive and measures performance against KPI's and makes recommendations to the Board in relation to each executive's performance accordingly.

A performance evaluation for all senior executives, including the CEO, took place during the financial year in accordance with this process.

3. Audit & Risk

Autosports Group recognises that risk management is an essential element in the framework of good corporate governance. The Group has a risk appetite statement setting the Group's attitude towards risk taking in different areas of the business.

The risks relevant to the Group were recorded on a risk register with the corresponding internal control strategies to mitigate each risk. These controls will be implemented through a series of actionable tasks carried out periodically throughout the year.

Senior management and the Board regularly review the Group's risk profile.

A review of the Group's risk management framework was undertaken during the period.

3.3 Internal audit

The Group has an internal audit function that undertakes an audit process of key risks identified by the Audit & Risk Committee. The internal audit function works to a Board approved internal audit plan and presents its findings and recommendations to the Audit & Risk Committee at the conclusion of the audit. Management is required to respond to and develop a plan in response to the findings and recommendations proposed by internal audit. Management reports to the Audit & Risk Committee on its progress with each plan.

3.4 Economic, environmental and social sustainability

The Group does not have any material exposure to environmental or social sustainability risks. The Group considered its climate change risks during the reporting period and identified carbon emissions regulations

impacting its OEM suppliers, extreme weather conditions such as hail storms and the possibility of consumer preferences changing to clean vehicles as potential, but not material risks to the business.

The Group's key risk areas and controls to mitigate the risks are set out below:

- **COVID-19** – The Group responded quickly to COVID-19 related risks which focused primarily on the health and safety of staff and customers, and ensuring the cashflow and liquidity position of the business. Due to Government imposed lockdowns, some dealerships were required to close necessitating the stand down of staff but many employees were able to continue working with the Group's access to Jobkeeper. Cost reduction measures were implemented including increasing access to debt facilities, seeking rent relief from willing landlords and support from OEM suppliers.
- **Macroeconomic Risks** – As the products sold by ASG are discretionary for many customers, Autosports Group's financial performance can be impacted by current and future economic conditions which it cannot control. Autosports Group stays abreast of these conditions and focuses on its internal controls to help manage this risk.
- **Payroll and wages** –The Group reviewed its procedures, conducted an internal audit in relation to payroll controls and consolidated and centralised its payroll system.
- **Consumer demand** – The Group has taken steps to protect itself from the poor trading conditions experienced nationally by Australian automotive retailers including reducing stock levels and managing variable expenses. COVID-19 has caused fluctuations in the normal cycle of consumer demand which the Group has responded to with cost reduction measures and approaching the pandemic with inventive ways of marketing our products.
- **OEM risk** – The Group's supportive and collaborative approach to its relationships with OEMs has cultivated the Group's excellent reputation amongst OEMs.
- **Work, Health and Safety ('WHS')** – The Group has a zero-risk tolerance for serious safety incidents. During the year the Group revised its Work Health and safety policies and procedures and worked with each business to improve safety reporting and incident management.
- **Reliance on key personnel** – The Group engaged in activities during the year to develop the skills and experience of potential successors as part of its succession planning initiatives.
- **Financier compliance risk** – The Group will continue to ensure it adheres to the terms of financier floorplan terms, meets the requirements of financier floorplan audits as well as monitor interest rate fluctuations.
- **Regulatory compliance** – ASG is subject to a number of Australian laws and regulation such as consumer protection laws, consumer finance laws, laws relating to the sale of insurance products, importation laws, privacy laws and those relating to workplace health and safety. In addition, COVID-19 has resulted in a surge of new laws and public health directives that impact the business of Autosports Group.
- **Changes to market trends** – The Group continues to monitor market trends to prepare itself for changes to consumer preferences and new technologies.
- **Cybersecurity and IT Infrastructure** –Cybersecurity threats are having an increasing impact on Australian businesses. The Company made improvements to its cybersecurity infrastructure throughout the year.

3.5 Chief Executive Officer and Chief Financial Officer declaration

The CEO and CFO have provided a written certificate to the Board in respect of the half year and full year statutory accounts of the Company that:

- in their opinion, the financial records of the Company have been properly maintained and the statutory accounts comply with the relevant accounting standards and other mandatory reporting requirements, and give a true and fair view of the financial position and performance of the Company; and

Since 30 June 2020, nothing has come to the attention of the CEO or CFO that would indicate any material change to any of the statements made above.
